

Constellation Schools

"The Right Choice for Parents and a Real Chance for Children"

Constellation Schools Student Wellness & Success Plan 2024/25

At Constellation Schools, we share a commitment to educating the whole child and dismantling barriers that hinder student, adult and family success. Our priority is providing staff and students a safe and secure learning environment to allow focus on personalized goals that extend beyond high school, emphasizing college and career aspirations.

Like many educational institutions in Ohio, we recognize the value of forging partnerships to maximize our impact on students and the community. Addressing the holistic needs of both the child and the family is a collaborative effort involving public and private partners deeply engaged within the school district and the wider community.

Constellation Schools engages with numerous partners who are deeply involved in this initiative: Helping students and families gain authentic experiences related to college and career readiness, health and wellness, food, clothing, and comprehensive counseling services that cater to the holistic well-being of the whole child and their family. Furthermore, our collaboration with current and expanding health partners allows us to address immediate needs and offer additional career counseling to meet the demands of various job sectors.

This holistic ecosystem of services not only provides diverse learning experiences but also addresses fundamental needs within homes throughout the region. The comprehensive public-private partnership, with its shared services approach, ensures that both students and adults have access to the necessary opportunities and resources for becoming lifelong learners.

- Community-based mental health treatment provider
- Board of health of a city or general health district
- County department of job and family services
- Non-profit organization with experience serving children
- Public Hospital agency

Plan Year: FY25

Need/Gap: (Data gathered from current mental health therapists, school counselors, family support specialists, student & staff culture surveys)

- Several students identified the need for improved school culture around treating others with respect, and student teasing and bullying
- Some students identified that they did not feel safe at school
- Comprehensive tiered services for mental & behavioral health available to all students regardless of county
- Minimize barriers to receiving needed counseling and mental health services
- Students identified the need for a caring adult and feeling like they belong

Goals:

- Provide access to comprehensive counseling services across all three tiers in order to minimize barriers to receiving counseling, behavioral, and mental health services making sure students are aware of the services offered
- Provide youth mentoring services to students who have been identified as at-risk
- Provide school-wide prevention services, classroom and individual counseling and substance use services to improve PBIS & school culture

Outcome Data:

- Student discipline data (improved, stayed consistent, decline)
- Positive Behavioral Interventions & Supports Data or Tiered Fidelity Inventory data (improved, stayed consistent, decline)
- School climate survey data (staff/students) (improved, stayed consistent, decline)

FY25 Initiative(s) Funding Sources:
