Dear Parents and Guardians,

Student life at Parma Community is centered on creating a supportive, engaging, and inclusive environment where every student feels connected and valued. Beyond academics, students have opportunities to participate in athletics, clubs, leadership activities, school events, and service projects that foster personal growth, teamwork, and school pride. Parma Community emphasizes building meaningful relationships between students and staff while promoting a culture of respect, responsibility, and belonging. Through a variety of extracurricular experiences, students are encouraged to develop their interests, discover their strengths, and become active contributors to both the school community and the world around them. Families are encouraged to come to all sporting events their child participates in. We welcome new ideas from students for clubs, and students can submit ideas and find an advisor to start new clubs.
